PURULIA,
The 7th December 1875.

(Sd.) W. B. MORTON, Lieut.-Col.,
Chairman.

No. 669, dated Chota Nagpore, the 31st March 1876.

From—W. L. F. ROBINSON, Esq., Commissioner of the Chota Nagpore Division,
To—The Secretary to the Government of Bengal, Public Works Department.

With reference to the Government orders No. 4952 of the 24th September 1872,

• Hazareebagh, No. 152, dated 18th February 1876.

Lohardugga, No. 17D, dated 31st December 1875.

Singbhoom, No. 38D, dated 18th January 1876.

Manbhoom, No. 31D, dated 20th February 1876.

and No. 50 of 23rd July 1873, I have the honor to submit in original the local improvement reports* and returns from the District Committees in this division for the cess year 1874-75.

2. The Manbhoom report came latest to hand, and has delayed the submission of my divisional report. It is moreover a very meagre one, and contains no information in original the local improvement reports* and returns from the District Committees in this division for the cess year 1874-75.

regarding the operations under the Road Cess Act. I have called Colonel Morton's attention to the orders on the subject, and pointed out what details his future reports should give.

3. The year under review was the second year of the road cess collections in Hazareebagh. The assessment was fixed, as in the preceding year, at three-fourths of the maximum rate, and the total demand on account of the cess on lands was therefore the same as in 1873-74. The total collections of the year on account of lands, mines, and houses amounted to Rs. 28,026, but out of this sum Rs. 572 had to be refunded for reasons detailed in paragraph 23 of the Committee's report. On the whole, the provisions of the Cess Act have been carried out in this district smoothly and satisfactorily, and it is a matter of congratulation that, as reported by the Deputy Commissioner, "there was not a single instance during the last two years in which it was found necessary to have recourse to sale of any moveable property or to attachment of the estates themselves for the recovery of the arrears."

The system of collections adopted answered well; the house cess was collected by the excise establishment of the district, and so there was no additional expenditure on this score.

4. In the Manbhoom district the road cess was collected for the first time during the year under report; but as the district was under great pressure in the previous year on account of the scarcity, collections were made from seven pergunnahs only, and hence the total amount shown in the present accounts is comparatively very small. The Deputy Commissioner, however, reports that the zemindars and tenure-holders of his district were very slow in the payment of their cess instalments on due dates, and he was therefore obliged to resort to the stringent measure of attaching the defaulters' properties under section 23 of the Act.

5. The total demand of the cess on lands was for the year Rs. 8,358, of which Rs. 4,126 was realized and Rs. 2,707 refunded to Bankoora, being collections from pergunnah Mohesara, transferred to that district, and the bulk of the remaining balance falling due on 28th September last it could not be recovered during the year. The house cess of the year amounted to Rs. 1,325, out of which Rs. 1,164 was realized, and Rs. 3 was written off, as it was erroneously twice entered in the accounts. These latter collections were made by paid peons, but towards the close of the year I directed the Deputy Commissioner to make these collections through the excise establishments, as in Hazareebagh, and this system is now being pursued during the current year.

6. The provisions of the Road Cess Act were extended to the Lohardugga district during the year under report under Government Notification No. 2088 of 5th October 1874, but the operations did not commence until the end of December. The valuation work is proceeding satisfactorily.

7. With regard to the action of the Road Committees, the real work is done by the official members, the non-official members seldom taking any interest in the proceedings; and when they do attend meetings of the Committee, they do so as a matter of form or etiquette, and seldom take any active share in the proceedings, and vote as they think will be pleasing to the local authorities, which is perhaps the best thing they can do until the country is further advanced in civilization.

8. Information regarding the District Road Committees has been furnished only by the Deputy Commissioner of Hazareebagh; the other Deputy Commissioners have been called on to supply the necessary information, which will be submitted to your office separately, as directed in paragraph 10 of the proceedings of the Public Works Department No. 1286 of the 13th instant.

9. Under notification of the Public Works Department, No. 469 of the 29th December 1874, the following assignments were made to the several districts in this division for the cess year under report:—

	Rs.
To Hazareebagh	5,000
" Lohardugga	20,000
" Singbhoom	16,000
" Manbhoom	15,000

But subsequently, by orders of your office No. 1262 of the 10th March 1875, a sum of Rs. 5,000 was withdrawn from the grant to the Lohardugga district and credited to Government, and a special grant of Rs. 2,400 was made to Hazareebagh under order No. 1601 of 24th March 1875 for completing the Churwa and Gonda bridges.

10. The total amount at the disposal of the Hazareebagh District Committee was during the year of report Rs. 43,859, and the total expenditure amounted to Rs. 33,107; of the latter, Rs. 18,448 was spent on original works and Rs. 5,701 on repairs. The details of these works are given in the Committee's report, but from the Deputy Commissioner's remarks on some of the roads inspected by him, it is quite clear that when the work was in Mr. Pereira's hands it was not well done and not sufficiently supervised. The necessity for visiting other parts of the division prevented my seeing much of the roads in the Hazareebagh district during the past year, with the exception of the main line from Hazareebagh to Giridih, which being provincial, does not come within the scope of this report. The only local road I did go over was the one from Kurrukdeha to Pachunba, and that can scarcely be dignified by the title of a road, as it is a mere cart track.

11. During the year of report the Lohardugga District Committee had a net sum of Rs. 40,437 available for expenditure, out of which Rs. 33,640 were spent. Of this latter sum an expenditure of Rs. 12,481 was incurred on account of cost of establishment and refunds of fines, as detailed in the 6th paragraph of the Committee's report. The charges for establishment are rather heavy, but it will be borne in mind that the valuation work under the Road Cess Act is now going on, and consequently this item must necessarily be costly. The remainder, or Rs. 21,159, was spent on roads, &c., in the two main divisions of the district, viz. Chota Nagpore Proper, or Sudder division, and Palamow sub-division, the amount spent on original works being Rs. 1,832 and that laid out on repairs being Rs. 19,327.

12. Full details of these works will be found in the Committee's report, and it does not appear necessary that I should make any further remarks on the subject. The only road referred to, which I have travelled over, is the one from Daltongunge to Ranchee, which is in tolerable order considering the difficult nature of the country through which it passes.

13. In Singbhoom the total amount to the credit of the Road Fund was Rs. 16,807, and the total expenditure amounted to Rs. 14,888, leaving a balance of Rs. 1,919 on the 30th September 1875. The amount spent on repairs is somewhat more than double of what was laid out on original works. A beginning of road cess operations will be made in Dhulbhoom this year.

14. The Manbhoom Committee had a total sum of Rs. 76,976 available for expenditure during the year, but of this sum Rs. 54,586 represents the value of surplus grain received from Government during the famine year. The Committee further received from Government a loan of Rs. 7,000 for turfing embankments, and this money was duly spent, but it does not appear in the Committee's accounts submitted for the year. The total expenditure of the year was Rs. 71,468, and of this sum Rs. 55,920 were laid out in original works, and only Rs. 17 on repairs. The details of these works are given in a separate statement submitted by the Deputy Commissioner, which shows that of the total sum spent on them, Rs. 44,399 was given in rice.

HIGH COURT NOTICES.

Circular Orders Issued by the Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 6, dated 24th April 1876.

District Judges are directed to submit all applications for the construction of new Court-houses, or for repair of the existing buildings, direct to the Government of Bengal, and not to or through the High Court.

No. 7, dated the 1st May 1876.

The Court adopts the following Circular Order issued by the High Court, North-Western Provinces, and directs careful compliance with the practice enjoined:—

"It has been noticed by the Court that when a Civil Court allows a plaint to be amended, instead of the amendment being forthwith made in the plaint itself, the order to make the amendment is merely filed with the record.

2. "The Court points out that when such permission or order is given, the amendment must be made in the plaint at once, and orders that it be attested by the signature of the presiding Judge."

No. 8, dated the 12th May 1876.

With a view to avoid wear and tear of the seals recently provided for the use of District Judges, Government has, on the recommendation of the Court, sanctioned the supply of seals of a smaller size and simpler make for use on minor occasions.

2. These seals, when ready, will be forwarded by the High Court.

3. It must, however, be understood that they are not to be used for sealing judgments, writs, processes, or other documents made or issued judicially; for such purpose the regular seal of the Court should alone be employed, under the superintendence of a responsible officer. But for all other purposes the smaller seals should be used.

Sheriff's Office, the 3rd May 1876.

Notice is hereby given that the Fifth Criminal Sessions of the year 1876, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the Thirty-first day of May next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

DACCA COMM'R.'s OFFICE, the 16th May 1876.

1. THE Calcutta Medical College Session of 1876-77 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificate of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

RESOLUTION.

GENERAL DEPARTMENT—MARINE—No. 1526

Calcutta, the 27th May 1876.

READ—

The following papers on the subject of the grounding of the ship *Mahableshwar*:—

Letter from Messrs. Lyall, Rennie and Company, dated the 29th February 1876.

Letter from the Officiating Master-Attendant, No. 1730, dated the 8th March 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 2053, dated 13th April 1876.

Letter to the Deputy Master-Attendant in charge, No. 1170, dated 21st April 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 3200, dated 5th May 1876.

1. Messrs. Lyall, Rennie and Company have complained that this ship, of which they are agents, grounded in the Rungafulla Channel on the 14th January, when going to sea under the pilotage charge of Mr. Wells, Acting Branch Pilot. They say that an alteration in the channel was communicated to the Master-Attendant on the previous day, the 13th, but was not made known, as it should have been, to the pilots.

The ship's grounding, they add, has caused a loss of Rs. 25,000: and they request that enquiry may be made into the practice of the Master-Attendant's office, in giving information to pilots of changes which occur in the channels.

2. In this case, the Lieutenant-Governor considers that it is clearly established that the pilot and the Master-Attendant's office were in no way in fault, and that the entire blame attaches to the River Surveyor. It is the duty of the River Surveyor, when he finds any change in the channels, at once to send to Bankshall a report and a duplicate sketch. The report is copied into the channel order book, and one of the sketches is kept there: this makes the change known to the pilots in Calcutta, who are bound to inform themselves of all entries in the channel order book. The original report, with the duplicate sketch, is then sent down to the Sandheads, for the information of the pilots on board the brigs.

3. Besides these special reports and sketches, the River Surveyor sends up, from time to time, charts showing those alterations which have already been embodied in the special reports. These charts are not examined in the Master-Attendant's office; they are sent on at once to the Surveyor-General for reproduction by photozincography, and copies are then available for sale to merchants and to the public. It is understood that no change will appear in the chart, which has not already been made the subject of a special report.

4. The River Surveyor, Mr. Laycock, had sent up, on the 28th December, a report, with sketches in duplicate, of certain changes in the Rungafulla Channel. On the 8th January he sent a chart, which reached the Master-Attendant's office on the 13th, and was as usual sent on to the Surveyor-General without examination. But this chart showed an important change in the channel, of which no report and sketch had previously been given. A spit of sand had run out into the usual navigation channel, and it was upon this spit that the *Mahableshwar* grounded. If the channel had been in the condition shown by the report and sketch of the 28th December, the pilot would have had 23½ feet of water at the place where the ship grounded. She was drawing 21½ feet, and the chart of the 8th January showed 20½ feet in this place.

5. Mr. Laycock's explanation is to the effect that he thought the change of no great importance, and that, if the pilot had kept more to the eastward, he would have had plenty of water. The Master-Attendant shows, in the 8th paragraph of his letter, that this explanation cannot be accepted as satisfactory.

6. The Master-Attendant was not, the Lieutenant-Governor thinks, to blame for not examining the chart. He might reasonably presume that it would not contain any information which had not previously been specially communicated. The pilot was not to blame for not keeping further to the eastward, as he had every reason to suppose that he was keeping a perfectly safe course.

7. The River Surveyor seems to the Lieutenant-Governor to have committed a grave neglect of duty in omitting to report, in the usual manner, a material change in one of the navigating channels; and it is to this neglect that the disaster to the ship is to be attributed. Mr. Laycock is in general honourably distinguished by vigilance and attention to his duties, and the Lieutenant-Governor regrets the necessity for passing this censure upon him. But in this case it is evident that Mr. Laycock's omission to report the alteration resulted in causing a considerable loss of property, and endangered the safety of the vessel and the lives of those on board. The Lieutenant-Governor therefore directs that Mr. Laycock be informed that his neglect of duty in this instance is regarded by the Government with serious displeasure, and that he be warned that inattention and oversight cannot be excused in an officer who holds so responsible a post as that of River Surveyor.

RULES.

GENERAL DEPARTMENT.—MARINE

Calcutta, the 26th May 1876.

The following rules, for the appointment of a qualified Board for the Examination of Masters, Mates, and Engineers of the Mercantile Marine, having been approved by His Excellency the Governor-General in Council, are published for general information.

The Examination Board, for conducting the examinations for granting certificates of competency to seamen, shall be constituted as follows:—

1. Senior officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* examiner in navigation; provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (a).—The examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta, or from the surveyors of shipping in the port.

(b).—They shall be appointed by the Lieutenant Governor on the nomination of the Master-Attendant.

(c).—The permanent President of the seamanship examiners shall be the Deputy Master-Attendant.

3. (a).—Three engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as examiners in steam. These will usually be selected from the superintending engineers of the different steam companies in the port.

(b).—The Chief Engineer of the Dockyard shall be the permanent President of the engineer examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The examiners shall receive the following fees for each examination:—

	Rs.
Seamanship examiners	32 each.

NOTIFICATION.

The 16th May 1876.—In continuation of the orders published at pages 338-39 of the *Calcutta Gazette* of 24th March 1875, the Lieutenant-Governor is pleased to notify that at the granting of a 20 years' lease under those orders, after the expiry of the preliminary lease, and also at every subsequent renewal of any such 20 years' lease, the amount of rent to be paid for the land per acre will be fixed at an amount not exceeding the rate of rent paid per acre in the neighbourhood at the time for the highest class of land under ordinary arable cultivation.

2. If at any future time the administration of the tracts in the Western Dooars under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the legislature, to impose such special taxation as may be deemed necessary to defray the additional expenditure so incurred, either by raising the rent or in some other mode. But under no other circumstances will the rent which has been once fixed for a term of years on the principle above enunciated be raised during such term.

The 13th June 1876.—The following resolution of the Government of India is published for general information :—

No. 249.

GOVERNMENT OF INDIA,—FINANCIAL DEPARTMENT.

RESOLUTION.

Sinla, the 31st May 1876.

The Governor-General in Council is pleased to resolve that, in the absence of specific orders to the contrary, whenever any sum due to the Government in sterling money is tendered or recovered in Government Rupees, the amount to be accepted in British Indian currency shall be calculated at the rate of exchange fixed for the adjustment of financial transactions between the Indian Government and Her Majesty's Imperial Government at the time the demand for payment is made. It will always, however, be at the option of the debtor to discharge his obligations by a bill payable on demand drawn upon London by any well known Bank or Firm.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,

Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

- I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwali Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.
- II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.
- III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.

Green Hill Road.

Victoria Road.

Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield	5,784	12	0
II.—Horse and pony-tax	600	0	0
III.—Rent of locations	1,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total	23,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1861, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75:—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	570	0	0
Bazar rents	11,732	4	3
Rent of locations	4,481	8	0
Rent of native village	1,231	11	5
Pound fines	230	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total	27,868	15	7

The expenditure during the year was Rs. 27,491, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

ACCOUNTS.

Simla, the 26th May 1876.

Read again—

Resolution in this Department, No. 191, dated 12th January 1876, deciding that without the previous sanction of the Government of India in the Financial Department no loan of public money shall be made under the provision of any special law bearing a less rate of interest than 4 per cent., and that no such loan shall be made otherwise bearing a lower rate of interest than 6 per cent.

Read—

A letter from Chief Commissioner of Oudh, No. 1625, dated 10th April 1876, inquiring, with reference to the above orders, whether interest at 6 per cent. is to be charged on advances made to public servants for building purposes.

RESOLUTION.—The Governor-General in Council is pleased to declare that it was not intended by the Resolution of 12th January 1876, No. 191, to prescribe that interest should be charged on advances made to public servants for building purposes.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200.

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13th June 1876.

In exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(a) the water will pass without wastage;

(b) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361.25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—This rule shall only apply in those cases in which the decision is made previous to the first watering of a crop, the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule 24.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to this Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(a).—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(b).—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(c).—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(d).—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(e).—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(f).—That in any case where the Divisional Canal Officer, owing to the known recalcancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(g).—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(h).—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinafter detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(a).—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(b).—No tank shall be so filled from which irrigation is practised.

(c).—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

- (d).—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-divisional Canal Officer approves.
- (e).—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.
- (f).—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (a) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (a) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (b), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows:—

WATER-RATES.

Sown Canals

Class.	Nature of Crop	FLOW IRRIGATION PER			LIFT IRRIGATION PER			Per Crop.
		Cottah.	Begha.	Acre.	Cottah.	Begha.	Acre.	
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
I.	Sugarcane, tobacco, indigo, opium, and cardamum	0 2 0	3 3 6	5 0 0	0 1 8	2 1 4	3 5 8	Crop.
II.	Most vegetables, water-melons, wheat, barley, cotton, and all crops not otherwise specified	0 1 2	1 9 6	2 8 0	0 0 10	1 0 8	1 10 8	Do.

NOTE

1 Cottah = 156/100 superficial feet.
 1 Begha = 272/100 " "
 1 Acre = 625/100 " "

20. If only a portion of a field be irrigated, the water rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghauni rice, jowar, &c.,—on 31st December. and shall be paid within one month of such dates.

32. In the case of lands held on Bioli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36. Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

NOTIFICATION.

The 20th June 1876.—The following revised rule is substituted for para. 12 of the instructions subsidiary to the putwarce rules in Orissa, notified in the *Gazette* of the 1st March 1876, Part I. page 205 :—

These rules and instructions apply to all estates paying revenue to Government, but will not apply to *lekhirajdars* and proprietors of estates not paying Government revenue, who are exempt from the operation of the rules. Subordinate *mukuddums*, *mouroosee sarhaurakars*, and other tenure-holders paying revenue through their superior *zemindars*, cannot be brought under the rules unless, under terms of the settlement, expressed or implied, the performance of putwarces' duties by subordinate tenure-holders was provided for, or they received a *malikana* allowance including the remuneration of a putwarree.

In cases where no special arrangement was made or implied in the settlement for performance of putwarces' duty by tenure-holders, Government look to the *zemindar*, who is amenable to the rules.

SUBORDINATE CIVIL SERVICE EXAMINATION, 1876.

RESOLUTION.

APPOINTMENT DEPARTMENT

Darjeeling, the 17th June 1876.

Read again—

- The report of the Superintendent of the Subordinate Civil Service Examination on the result of the examination held in 1875, and the Resolution of the Government recorded thereon, dated 22nd June 1875.
- The Resolution of this Government in the General Department, dated the 10th March 1875, intimating to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depended entirely on their passing the examinations to which they were still respectively liable.
- The Minute recorded by the Lieutenant-Governor of Bengal, dated the 25th September 1875, on the competitive examinations for admission of candidates to the Native Civil Service of Bengal.
- The Notification of this Government in the General Department, dated the 23rd November 1875, promulgating the revised rules to regulate the Native Civil Service Examination to be held in 1876, and future examinations.

Letter from the Superintendent of the Subordinate Civil Service Examination, No. 35, dated the 15th May 1876, reporting the result of the examination held in March last at Hooghly, Patna, and Cuttack.

In paragraph 9 of the Resolution dated the 22nd June 1875, it was announced that, in view of the large number of passed candidates who had yet to be provided with appointments, the Lieutenant-Governor had decided not to hold another general examination under the then existing rules until further notice. Subsequently, in his Minute dated the 25th September 1875, the Lieutenant-Governor, after reviewing the principle on which the examinations had been previously conducted for admission to the Native Civil Service, pointed out that it had resulted in the passing of a larger number of candidates than the Government could conveniently provide with appointments, and directed that, instead of all candidates being passed who came up to a given standard, the examinations in future should be competitive, that is, that a fixed number of places in the higher and in the lower classes of appointments would be prescribed, for which those candidates would be passed who came out first at the examination. It was further laid down that no candidate would be passed for the higher grade of appointments unless he obtained at least two-thirds, or for the lower grade of appointments unless he obtained at least half, of the total number of obtainable marks upon the whole examination.

2. The number of appointments offered for competition at the past examination, which is the first held under the new rules, was four in the higher and seven in the lower grade; that is, four appointments on Rs. 100 per mensem or upwards, and seven on salaries below that amount. The examination was held in March last at Hooghly, Patna, and Cuttack. Ten candidates entered as competitors, but only 8 appeared and underwent examination. Of these, 3 entered for the higher grade and 5 for the lower; but none passed for the former, and only the 5 candidates named in the margin passed for the latter grade.

1. Moonshee Azizar Ruhman.
2. Mahomed Azhar.
3. Baboo Brosenath Bhattacharjee.
4. " Mahub Lall.
5. " Kunal Chunder Dutt.

3. Of these five, two—(1) Moonshee Azizar Ruhman, and (2) Mahomed Azhar, who were candidates for the lower grade—have obtained more than two-thirds of the number of marks, and are therefore, under paragraph 7 of the revised Examination Rules, eligible for appointments of the higher class. They hold, however, no University degree, nor have they either served Government for a period of six years, or been specially declared eligible for all appointments, as required by paragraph 5 of the rules: the Superintendent of the Examination proposes therefore to place them in the lower grade. Looking, however, to the very good examination which these two candidates have passed, the Lieutenant-Governor has been pleased to waive in their favor, as a special case, the objections which exist under the rules to their being placed in the higher grade, and they are accordingly declared eligible for appointment in that grade.

4. Of the remaining three who have passed, two— 3) Baboo Brojonath Bhuttacharjee, and (4) Madhub Lall—were candidates for the higher grade, but have failed to obtain the requisite number of marks; they have, however, obtained more than half the total number of marks, and the Superintendent recommends that they should be declared eligible for employment in the lower class of appointments. In making this recommendation, the Superintendent has overlooked the provisions of Rule 7 of the revised Examination Rules, which lays down that "candidates must declare whether they desire to compete for the higher or the lower class, and that a candidate for a place in the higher class will not be eligible at that examination for a place in the lower class." In consideration, however, of the recommendation of the Superintendent of the Examination, and of the fact that the number of candidates at the late examination was fewer than the number of appointments offered for competition, the Lieutenant-Governor is pleased, as a special case, to waive in their case also the objection noted above. These two candidates, together with Baboo Kunal Chunder Dutt, are therefore pronounced eligible for appointments in the lower class.

5. Of the three candidates who failed, Mahomed Nuzerooddin and Baboo Kooldeep Narain Sing already fill appointments in the Subordinate Executive Service conditionally on passing the requisite standard of examination.

Mahomed Nuzerooddin was appointed surveyor in Balasore in July 1873, subject to passing in 1874. He was subsequently granted further time for preparation till 1875, and, with reference to the result of his examination in the latter year, another year's grace was allowed. He was at the same time exempted from examination in chemistry, botany, and gymnastics. As he has now obtained passing marks in engineering and Oriya, and fair marks in all other subjects except Bengali, which is not the vernacular of his district, and as he is also favorably reported on by his superiors, the Lieutenant-Governor has been pleased, as a special case, to declare him as fully passed for the lower grade.

Baboo Kooldeep Narain Sing was appointed 2nd Grade Canoongoe in Gya in November 1873, subject to passing the Native Civil Service Examination. He was exempted from attendance at the examination of 1874 in consideration of his employment on famine relief operations. He did not attend the examination in 1875, owing, it was alleged, to ignorance of the date of the examination. On a consideration, however, of the recommendations made by the Commissioner of Patna and the Collector of Gya, the Baboo was permitted, as a special case, to retain his appointment, subject to passing at the examination in 1876, and was distinctly given to understand that no excuse would be entertained for failure on his part to attend or to pass at that examination. As he has now obtained half marks in only one subject, viz. in the vernacular, and very low marks in all other subjects, the Lieutenant-Governor directs that he be removed from his appointment.

6. In the orders passed on the report of the result of the examination in 1875, it was stated that candidates who had conditionally passed at that examination would, as a special case, be allowed to appear at the examination of 1876. Accordingly thirteen such candidates obtained permission to attend the examination, but twelve only, including five assistants of the Opium Department, who were to be examined in the special subjects of surveying, botany, and chemistry, appeared and underwent the examination. All the

opium assistants failed; the case of these officers will be dealt with departmentally. Of the others, the three named in the margin have now finally

passed for the lower grade, and are accordingly declared to have done so under the old rules. Of the remaining four, Baboo Kedar Nath Banerjee has now passed in law and botany, but is still liable to pass in chemistry before he can be considered to have passed the examination for the higher grade. Baboo Kunal Lall has now passed in law and drawing, and has still to pass in surveying and mensuration before he can be considered to have passed the examination for the lower grade. This candidate is already in the service on probation, and as he is well spoken of by the officers under whom he is employed, he will be

held to have passed for the lower grade on condition that he succeeds in passing completely at the next examination.

Baboo Doorga Mohun Ghose has now passed in law for the lower grade, and is still liable to pass in surveying and engineering. This candidate is also in the service, and as he is well reported of, he will be held to have passed for the higher grade, provided he passes completely at the next examination.

Abdul Mujeed was examined by mistake in Hindustani instead of in Bengali, and has passed in the former language for the lower grade, but he has failed in law and surveying. This candidate was appointed to the service in January 1874, conditionally on his passing the examination in 1875, and as he did not attend the examination held in that year, and has failed to pass at the present examination, the Lieutenant-Governor directs that he be removed from his appointment.

7. The officers named in the margin, who now hold appointments conditionally on passing the requisite standard, failed to attend the examination.

1. Eknath Sahay, Canoongoe, Shahabad
2. Kalprosunno Roy Chowdry, Canoongoe, Nuddea
3. Akhury Char Shambhujan, Canoongoe, Lohardugga.

Eknath Sahay, Canoongoe in Shahabad, was appointed in 1873, subject to passing. He was exempted from attendance at the examination of 1874, owing to his employment on famine relief work. He did not attend the examination held in 1875, but, on the recommendation of the Commissioner of Patna, was permitted to retain his appointment and to appear at the next examination. This, however, he has not done, and the Lieutenant-Governor therefore directs that he be removed from his appointment.

Baboo Kalprosunno Roy Chowdry was appointed Canoongoe in February 1874, subject to passing the Native Civil Service Examination. He was exempted from attendance at the examination in 1874, but was informed that no excuse for non-appearance at the examination of 1875 would be admitted. He did not, however, attend the examination in that year, and no report was received as to the cause of his absence. As he has also failed to attend the present examination, the Lieutenant-Governor directs his removal from the service.

Akhury Char Shambhujan was appointed a Canoongoe in Lohardugga in February 1874, subject to passing the Native Civil Service Examination. As he has since failed to attend any of the examinations, he must now be removed from the service.

8. In accordance with the terms of the Lieutenant-Governor's Minute of the 25th of September last, the vacancies thus caused will be filled up by the candidates who have passed the recent examination in the lower grade; the two candidates also who have now been declared to have passed for the higher grade will be immediately provided with appointments in that grade.

9. In the Resolution of the 10th March 1875, a warning was conveyed to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depended entirely on their passing the examination to which they were severally liable, and their attention was again drawn to the subject in the subsequent Resolution of the 22nd June 1875. Two of these officers, Baboo Kailash Chandra Chatterjee and Moulvie Muizuddin Ahmed, being employed in settlement work were not able to attend, and another, Moulvie Motiulla, was specially exempted from attendance. But none of the other officers liable to examination attended the present examination, nor has any explanation as to the cause of their absence been laid before Government. The Lieutenant-Governor now requests that Commissioners of Divisions will be good enough to submit, at an early date, a special report regarding such of these officers as may be serving within their divisions. The reasons why they failed to attend the examination should be fully explained, and Commissioners and District Officers should at the same time submit any recommendations which they may wish to make with regard to the further retention of these officers in the Government service.

10. As the Superintendent reports that the paucity in the number of candidates who entered for the competitive examination is probably owing to the fact that the new Examination Rules were not made public sufficiently

early in the year to afford candidates much time for preparation, and that the terms were not generally nor properly understood, the Commissioners of Divisions and District Officers are requested to take every opportunity of explaining the principle on which these examinations are conducted, and to notify, as widely as possible, that another examination will be held in February or March next. The precise date on which the examination will be held next year will be shortly notified, as well as the number of appointments to be competed for in each grade.

11. The thanks of Government are due to Mr. Grimley, and to the gentlemen who were associated with him in conducting the recent examination.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kowali Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.
Victoria Road.

Birch Hill Road.
Station Roads.

Estimated cost Rs. 9,000

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield	5,784	12	0
II.—Horse and pony-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75:—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	579	0	0
Bazar rents	11,732	4	8
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	18	0

The 13th June 1876.—The following resolution of the Government of India is published for general information:—

No. 249.

GOVERNMENT OF INDIA,—FINANCIAL DEPARTMENT.

RESOLUTION.

Simla, the 31st May 1876.

The Governor-General in Council is pleased to resolve that, in the absence of specific orders to the contrary, whenever any sum due to the Government in sterling money is tendered or recovered in Government Rupees, the amount to be accepted in British Indian currency shall be calculated at the rate of exchange fixed for the adjustment of financial transactions between the Indian Government and Her Majesty's Imperial Government at the time the demand for payment is made. It will always, however, be at the option of the debtor to discharge his obligations by a bill payable on demand drawn upon London by any well known Bank or Firm.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200

NOTIFICATION.—IRRIGATION BRANCH

Dated the 13th June 1876.

In exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two 2 miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(a) the water will pass without wastage;

(b) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361.25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—This rule shall only apply in those cases in which the discrepancy is made previous to the first watering of a crop: the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule 25.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(a.)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(b.)—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

- (c).—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.
- (d).—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.
- (e).—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.
- (f).—That in any case where the Divisional Canal Officer, owing to the known recalcancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.
- (g).—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.
- (h).—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinafter detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

- (a).—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.
- (b).—No tank shall be so filled from which irrigation is practised.
- (c).—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.
- (d).—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.
- (e).—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.
- (f).—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (a) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (a) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (b), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows —

WATER-RATES.

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-Divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, jowar, &c.,—on 31st December, and shall be paid within one month of such dates.

32. In the case of lands held on Bhoi tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36. Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

CRIMINAL.

No. 2, dated the 5th May 1876.

SECTION 301 of the Criminal Procedure Code directs the Court of Session, on receipt of the order of the High Court confirming a sentence of death, to issue a warrant to the officer in charge of the jail in which the prisoner is confined, to cause the sentence to be carried into execution. As it is expedient to provide that a sufficient but not excessive interval should elapse between the passing and the execution of such sentences, the High Court directs that the date named by the Sessions Court, in its warrant, for the execution of a sentence of death shall be not less than fourteen, nor more than twenty-one, days from the date of the issue of such warrant.

CIVIL.

No. 9, dated 12th May 1876.

The accompanying copy of a correspondence regarding evasions of the Stamp Law by native money-lenders in certain classes of loan transactions, is circulated for the information and attention of all Civil Courts.

From H. LEE, Esq., Acting Assistant Secretary to the Government of Bengal, to the Registrar of the High Court of Judicature, Calcutta,—(No. 1018, dated 13th April 1876.)

In continuation of this office letter No. 374, dated the 9th February 1876, I am directed to forward the accompanying copy of a letter* from the Board of Revenue, on the subject of evasions of the stamp law in certain classes of loan transactions by native money-lenders, and to request that the Hon'ble Judges may be moved to direct the issue of the necessary instructions to the Subordinate Civil Courts, on the points indicated by the Board of Revenue, for the prevention of the evasions in question.

* No. 222B, dated 23rd March 1876

From W. H. GRIFFITH, Esq., Officiating Secretary to the Board of Revenue, to the Secretary to the Government of Bengal, Revenue Department—No. 222B, dated Fort William, the 23rd March 1876.

In paragraph 49 of the Board's report on the administration of the Stamp Department for 1874-75, an instance is related of the manner in which the stamp laws are evaded by native bankers in loan transactions. In the case in question the money-lender was in the habit of advancing money without drawing up a formal bond, but a book was kept by him, made up of a number of loose pages stitched together with a piece of string. On each page was a loan transaction, thus: I, A. B., have this day borrowed of you, C. D., Rs. 100, with interest at 1 per cent. per mensem,—signed A. B., witnesses E. F., &c.; loan to be repaid in such and such instalments; and so on. Each leaf of the book related to a separate loan transaction, and could be removed at will. In case of default, the book, or leaf of the book, was produced in Court in support of a suit by C. D. against A. B. This is said to be a type of similar transactions of daily occurrence in many parts of Bengal, and it is asserted that Civil Courts frequently give decrees on such informal documents, sometimes without any enquiry as to the absence of a stamp, and sometimes by admitting the document in evidence after payment of penalty duty under the provisions of section 20 of the Stamp Act XVIII of 1859. Either course is apparently illegal. The Member-in-charge is advised by the Advocate-General that each page of the loan book as above described constitutes a promissory note as defined in section 3, clause 25 of the Stamp Act, and is therefore liable to stamp duty under article 2 of schedule I, annexed to the Act; under section 18 they are not therefore admissible in evidence without being duly stamped. Nor is it possible to correct the omission of stamp duty by payment to the Civil Court of penalty duty under section 20, inasmuch as it is expressly declared in section 28 that the provisions of section 20 do not apply to promissory notes.

2. Mr. Money thinks that it would perhaps have some effect in checking evasions of stamp duty on loan transactions if the attention of the High Court were invited to the existence of the practice as above described, with the view of such instructions being issued to the Subordinate Civil Courts as will prevent the acceptance in evidence of unstamped pages of an account book in lieu of a sufficiently stamped promissory note, and also prevent their admission, on payment of penalty duty, under section 20 of the Stamp Act.

3. I am further directed to suggest that the attention of Courts may be drawn to the fact that in very many instances promissory notes require to be engrossed on paper of a special kind, bearing stamps of a peculiar device. Under section 6 of the Act, all promissory notes, except those chargeable with the duty of one anna, must necessarily be written either on impressed paper, i.e., paper impressed with a stamp, or upon paper upon which the stamp has been denoted in a peculiar manner by the Superintendent of Stamps or the Collector. Two samples, A and B, of impressed paper are enclosed. Specimen A, however, has ceased to be manufactured, and will only continue in use till present stocks are exhausted. A specimen (C) of denoted paper is also enclosed. This paper is denoted by the Superintendent of Stamps, Calcutta, and is sold to the public. The Collector of Calcutta also "denotes" by means of a circular steel die, but that process is effected after the body of the deed is written, and there is no mistaking it. Consequently, in certain cases, a promissory note inscribed on a leaf of an account book, even though it were stamped with an adhesive stamp, is not admissible in evidence as being duly stamped in accordance with the law.

No. 10, dated the 5th June 1876.

Instances are frequently coming to the notice of the High Court in which cases have been remanded on appeal, although the state of facts contemplated by Section 351, Code of Civil Procedure, did not exist, and the order of demand was therefore contrary to law, and in some of these cases the evidence was actually complete.

2. Appellate Courts, in some instances, thus get rid of appeals, merely deciding a single, and perhaps very simple, point and so obtaining credit for the decision of a large number of cases; while, on the other hand, parties to the suits are put to the expense and trouble of a new trial in the lower Court, and probably of a fresh appeal on the new decision.

3. Such a practice, wherever it prevails, must be forthwith discontinued. The proper mode of proceeding will be found laid down in Sections 351 to 357 of the Civil Procedure Code, and Circular Order No. 36, dated the 12th September 1866; and the occurrence of any instances such as have necessitated the issue of this order will be very seriously noticed by the High Court.

No. 11, dated the 5th June 1876.

It has been brought to the notice of the High Court that Commissions under Section 175 of the Civil Procedure Code are not unfrequently addressed by various inferior Courts in the Lower Provinces to the Judicial Commissioner of Oudh. This practice is improper and must be discontinued. Commissions should in future be addressed either to the nearest local Court, if known, or to the Court of the Deputy Commissioner, which is in Oudh the District Court, or in Lucknow, to that of the Civil Judge.

NOTIFICATION.

The 23rd June 1876.—Whereas it is provided by Section 74 of Act XII of 1875 (the Indian Ports' Act) that any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters' Act, 1852, has, by an Order of Her Majesty in Council, been, or shall hereafter be, declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman, not being a slave, from any ship of such Foreign Power, may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and may take the further proceedings provided by the Act: and whereas Her Majesty in Council has been pleased to issue an Order in Council, dated the 12th February 1876, making the Foreign Deserters' Act applicable to the Kingdom of Greece, and the Governor-General in Council has been pleased to direct the publication of the order, the Lieutenant-Governor has been pleased to direct the publication of the Order in Council in the *Calcutta Gazette*, for the information and guidance of the Magistrates within the presidency of Bengal, as follows:—

AT THE COURT AT WINDSOR.

The 12th day of February 1876.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by the "Foreign Deserters' Act, 1852," it is provided that whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering or apprehending seamen who desert from British merchant ships in the territories of any Foreign Power, Her Majesty may, by Order in Council stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to such Power when within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such order, and may render the operation thereof subject to such conditions and qualifications (if any) as may be deemed expedient:

And whereas it has been made to appear to Her Majesty that due facilities are given for recovering and apprehending seamen who desert from British merchant ships in the territories of His Majesty the King of the Hellenes: now, THEREFORE, Her Majesty, by virtue of the powers vested in Her by the said "Foreign Deserters' Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the *London Gazette*, seamen, not being slaves, and not being British subjects, who, within Her Majesty's dominions, desert from merchant ships belonging to the Kingdom of Greece, shall be liable to be apprehended and carried on board their respective ships: Provided always that if any such deserter has committed any crime in Her Majesty's dominions, he may be detained until he has been tried by a competent court, and until his sentence (if any) has been fully carried into effect.

And the Secretaries of State for India in Council, the Home Department, and the Colonies, are to give the necessary directions herein accordingly.

GOVERNMENT OF INDIA.—FINANCIAL DEPARTMENT.

RESOLUTION.

Simla, the 31st May 1876.

The Governor-General in Council is pleased to resolve that, in the absence of specific orders to the contrary, whenever any sum due to the Government in sterling money is tendered or recovered in Government Rupees, the amount to be accepted in British Indian currency shall be calculated at the rate of exchange fixed for the adjustment of financial transactions between the Indian Government and Her Majesty's Imperial Government at the time the demand for payment is made. It will always, however, be at the option of the debtor to discharge his obligations by a bill payable on demand drawn upon London by any well known Bank or Firm.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,

Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.
Victoria Road.

Birch Hill Road.
Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield	...	5,784	12 0
II.—Horse and pony-tax	...	600	0 0
III.—Rent of locations	...	4,684	0 0
IV.—Bazar rents	...	18,000	0 0
V.—Native village rent	...	1,800	0 0
VI.—Pound fines	...	500	0 0
Total	...	25,868	12 0

4. The house and horse taxes are levied under Act III of 1863.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 11th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75:—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	579	0	0
Bazar rents	11,732	4	3
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200.

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13th June 1876.

In exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Soane Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(a) the water will pass without wastage;

(b) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule 25.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

- (a).—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
- (b).—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.
- (c).—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.
- (d).—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.
- (e).—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.
- (f).—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.
- (g).—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.
- (h).—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinafter detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

- (a).—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

- (b.)—No tank shall be so filled from which irrigation is practised.
 (c.)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.
 (d.)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.
 (e.)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.
 (f.)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (a) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (a) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (b), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows:—

WATER-RATES.

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-Divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—sacra rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, joaur, &c.,—on 31st December. and shall be paid within one month of such dates.

32. In the case of lands held on Bāoli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36. Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.
